STRATHCONA NEWS

NEW CHURCHES FOR STRATHCONA

The Southern City will Shortly
be well Supplied with Hand-
some Edifices.

The year 1907 promises to be a great church year in Strathcona. Close up on the new year the new R. C. church was opened, and a fine one it is. With the laying of the corner stone on Monday operations on the new Presbyterian church have been resumed, and the late days of summer will see the building ready for occupancy. Just the other day plans were adopted and the contract let for a new edifice to replace the old Methodist church, and it is said that this denomination will have the finest of all the local places of public worship. Then, too, the congregation of the church of England is falling into line. It is the intention of this congregation to provide themselves with the greater accommodation and more speedily, and they will erect a new building very shortly. All these churches, including the Baptist, are in fairly close proximity to one another, and should make the locality almost a "forest of spires."

STRATHCONA BUILDING PERMITS

April is the first month that Strathcona has been issuing building permits and the record for the month is a most creditable one. The total issued \$22,186. The most of which was for small dwellings.

LOCALS.

W. Grant has recently purchased a new automobile.

A large tent has been put to the equipment of the public hospital.

THE VANISHING BUFFALO.

Forest and Stream Urges Prompt Action to Prevent Extirpation.

The question of better protection for the herd of buffalo, known as the Peace River herd, and estimated to number 400, is a live topic in all the sporting journals on both sides of the line, and an announcement from the government as to what it proposes to do in the matter of saving these animals from destruction by the ever increasing packs of wolves, is eagerly awaited by numerous sportsmen all over the continent.

Forest and Stream, one of the leading American journals, devoted to outdoor recreations, in a recent issue, has taken prompt action on the part of the authorities to save this last remnant of the once numerous herds of North American buffalo. Forest and Stream has this to say:

"There still exists in the Northwest the little herd of wood buffalo, known as the Peace River herd, which ranges along the Peace river and Slave river in the wooded country north of Lake Athabasca. This herd, which the most sanguine do not estimate at over 400 head, is said to be rapidly decreasing."

"It is true that Canada has legislated in behalf of the buffalo, and has thus striven to protect them from man. It is possible that a few are killed annually by Indians, but the number is small. Within the past two or three years, however, it has been frequently reported that there has been no increase whatever in this herd, because even hunting the wolves kill off all the calves that are born. Late information which we have received from traders from the north, who lie near the range of the buffalo, points to the conclusion that there are no animals in the buffalo herd under three years old."

"The gradual extinction of this little herd, from whatever cause, is a melancholy thing, and one that cannot but be regretted by every nature lover. So one feels more earnestly about it than the President of the United States, who in a letter sent not long ago to the convention of the North American Fish and Game Pro-

tection association spoke of this herd of bison, and urged that every precaution should be taken to preserve it. Much more recently he wrote to Earl Grey, Canada's Governor-General, asking him what influence, if any, can be brought to bear on behalf of this little herd."

"If it is the fact that danger to the wood buffalo's existence arises solely from the wolves, some method should be devised for reducing the numbers of these destructive beasts. The most obvious way to kill them is by poison—a means which we now know has never been employed in the extreme north. Wolf hides are valuable, and it would seem that the Indians and white trappers might profitably employ this method in the light of wolves. In a heavily timbered country, such as that occupied by the buffalo, it is difficult to think of any other efficient means."

"Since, however, the heads of governments of the United States and Canada, are deeply interested in this matter, we may hope that the local authorities on whom the burden of the destruction must finally fall, will also take hold of it with energy, and devise some method of protecting the remnant."

HAS 2,000 STRAWBERRY PLANTS.

James Chepin, father of the Misses Chepin, of the Edmonton public school teaching staff, has just arrived from Ontario. He has taken up land near Ladue in the vicinity of his son's farm. Mr. Chepin is an enthusiastic and successful fruit grower, and has a large number of strawberry plants which he expects will flourish abundantly here.

Miners' Strike in Japan.

Tokio, April 30.—Serious disorders have broken out at the coal-mines near Hama in the Koshiu administrative district, where 2,000 miners have struck for more pay. strikers burned the office buildings, and a large number of residences. Sharp collisions occurred between the strikers and police, and number on both sides were wounded.

From One Day To The Other

The Sleepy Song.
As soon as the fire burns red and low
And the house upstairs is still,
She sings me a queer little sleepy song
Of sleep that goes over the hill.
The good little sheep run quick and soft,
Their colors are gray and white,
They follow their leader, nose to tail,
For they must be home by night.
And over they go, and over they go,
And over the top of the hill,
The good little sheep run quick and soft,
And the house upstairs is still.
And one comes over and one comes next,
The good little, gray little sheep!
I watch how the fire burns red and low,
And she says that I fall asleep.

White Thoughts.
We are shaped and fashioned by what we love.—Goethe.
We gain strength of the temptation to resist.—Emerson.
Let us use our past mistakes and failures as building material for future success.—Robertson.

I look upon the simple and childish virtues of veracity and honesty as the root of all that is sublime in character. Speak as you think, be what you are.—Emerson.

The Gardening Season.
Days of sunlight that have in themselves alluring invitation to all growing things, and lengthening spring days, irresistibly suggest that we take out our hose and rakes and, prone by mistakes by which in the past, turn our minds to gardening.
Edmonton's soil is said to be particularly adapted to the growth of flowers and flowering shrubs, and few homes are without a place for small garden. So that the summer it is likely there will be some pretty bits of garden-landscape here.
A great deal can be accomplished in scattered backyards in the garden, and even if there were nothing more than the delights of the actual work in the garden, it would still be worth while. It is rejuvenating. More than that, it is a wintering of the mind and body. The wintering of the mind and body is a match in his lawn or backyard.

Improving the Lawn.
All the ugly or imperfect spots in a lawn will show up clearly now, and calls for remedial attention. If where the lawn is either poor or choked by weeds, dig it up. The radical way is to remove the soil and give better results than putting about it from week to week during the summer.
Dig up the ground quickly. Turn it all up with a spading fork. Bake out the roots of the weeds and burn them. Mix some fertilizer with the soil and smooth it to the level of the rest of the lawn by the simple expedient of pulling a long board or straight stick across it. After all this is done, stamp it down hard or roll it. Then rake it lightly again and let it lie for a week or so.
By this time what weed seeds were left in it will begin to sprout and you can clear them out easily. Now scatter in your grass seed, putting it in thickly. Then throw enough fine soil over all to cover the spot about an eighth of an inch thick. Roll again or stamp it down and continue during the week, meantime flushing it liberally at every conceivable opportunity with the hose.

A Good Cold Cream.

The recipe for an excellent cold cream, that can be made at home at small expense, to resist the drying sun and wind of an Alberta spring, is given here: Take one ounce of spermaceti, the same amount of white wax, five ounces of oil of sweet almonds, two and three-fifths ounces of rosewater and fifteen grains of powdered borax. Melt together the wax, spermaceti and rosewater, then remove the mixture from the fire and add the borax in which the borax has been dissolved. Beat the mixture to a stiff with a silver fork, and when it is beginning to thicken add a few drops of oil of rose.

Mark Twain's Courtship.

Mrs. Samuel Clemens was Miss Louisa Langdon. For some years before she met Mr. Clemens (better known as Mark Twain) she had been confined to her bed with what was believed to be an incurable disease; but she was at length miraculously restored to health. The cure was the suggestion of Eliza F. N. Y. and young Clemens, then a newspaper

A LIBRARY FOR THE CAPITAL.
 The Canadian Club of Edmonton has undertaken a meritorious and laudable work in its inception of a movement to arouse the citizens along the lines of improvement, not in methods of municipal government, but in matters of general public policy that will create a healthy esprit de corps in the whole citizen body. The discussion of the club at its last luncheon upon a comprehensive scheme for beautifying the city will go far in stimulating and crystallizing public opinion in this respect.

The institution of a public library is another question that might be taken up in the near future by the club. At present few towns and cities of the province possess public libraries. In this respect the desire of the Alberta Government has outrun public opinion and has issued what is virtually a challenge to the municipalities of the province to do something to put the means of intellectual enlightenment before the community.

Encouragement for the establishment of public libraries is now offered by the Alberta Government and every town and city should avail themselves of the offer made in this act relating to "the establishment of public libraries." The act provides for the organization of public libraries boards and contains a clause to the effect that the government will grant a dollar for every dollar the public library board spends in the purchase of books and periodicals, though the amount that is to be granted each year is limited, but not to any measure sum.

It is unnecessary here to detail the benefits to accrue from an institution that has been regarded as a public necessity since the days of Ptolemy, but simply to state that Edmonton, the provincial capital and the seat of the provincial university, has a reputation to keep up as the chief city in the province, and foremost in all the modern advantages for profitable recreation, and popular education. So many people from Eastern cities in Canada and the United States are settling among us that a move on the part of our citizens has become imperative.

The government's action in the matter is timely and commendable and places the responsibility now upon the city.

A TIMELY SUGGESTION
 Sir Wilfrid Laurier has been creating a favorable sentiment in British financial circles toward Canada as a safe field of investment for British capital. There is no doubt that Canada needs the capital. The financial situation in Canada is tight. The rapid influx of immigrants into Canada is imposing a tremendous load on our financial resources. Canada is trying to assimilate a larger proportion of immigrant population than any nation has ever handled before at one time. Though each settler represents a definite cash value in the community, yet at the present time they represent a vast earning power, and capital has to be provided to meet this contingency. Railways have to be constructed to accommodate them, houses and barns to shelter them and their flocks, and factories enlarged to supply their wants. At this juncture which is cause of all our prosperity, throws a great problem before our banking and financial system. Coupled with the above cause there is an immediate and local cause in the tie-up of so much capital in the Western wheat crop of 1928. Millions of dollars are tied up in the banks waiting to move the wheat. When late navigation opens it gives temporary relief to the money situation, but by the time the crop of 1929 is moved the capital will have to come West again for the harvest of 1929.

To the London money market, therefore, Canada must look for her extra capital to maintain the present rate of development. Funds are somewhat more plentiful in London just now than they have been for some weeks, and it looks as if Sir Wilfrid had seized this as a propitious moment to reap an advantage for Canada by soliciting the interest of the British capitalists.

FORT SASKATCHEWAN.

Mr. John Paul took charge of the services in the Presbyterian church on Sunday night, when he preached in the afternoon, because of Mr. F. E. Turner's absence. Mr. Paul is at the synod of Alberta now being held at Calgary.

Mrs. W. J. MacKenzie Walker and family of the barracks have returned to Saskatoon from Kamloops, B.C., where they have been residing for a few months.

Mr. Dave Simmons and son Morton have gone to Kamloops, B.C. Mr. Simmons expects to return in the course of a few weeks, leaving Mr. Morton at Kamloops until his father is repaired, which we trust will be very soon.

We are delighted to see that the new instruments for our fire brigade stand, lately organized, have arrived from Whaley, Hayes & Co. of Winnipeg. They look well, and are all impatience to hear them. Success to the new enterprise.

Mr. Ed. Hall of Calgary, travelling agent for the McCormack implement manufacturing company, is in the Fort looking after the company's business.

Mr. Walter of Cushing Bros. has gone to Penitence on a visit to his daughter.

Mrs. A. M. Suberland will hold her post-natal reception in the afternoon and evening of Friday, May 3.

A delegation from the Fort Lodge No. 14 Independent Order of Odd Fellows went to Edmonton on Sunday morning to attend divine service. The anniversary reception of the order will be held in their hall here on Sunday, May 5.

Mr. J. S. Edmonds and Strathcona lodges have been invited to attend. Rev. A. R. Aldridge of Strathcona is expected to conduct the service.

Timothy of Riverview City Barré spent a few days at the manse last week. Mrs. F. C. Barré and her family are visiting in the city.

Mr. F. F. Fries has gone to Edmonton where he has entered into partnership with his brother, Mr. F. F. Fries, in the firm of F. F. Fries & Co. Mr. C. E. Vos, formerly of Edmonton, has been named as the manager of the Fort Electric company, limited.

LAC LA NONNE.

The settlers in this district have all been working like beavers getting out logs. The mill will have about 200,000 ft. of cut, which will be then busy for some time. Many new houses and barns will go up this spring.

A syndicate of some gentlemen in this district are seriously considering the erection of a large and up-to-date hotel on the lake.

Lac La Nonne ranks second to none of all the pretty lakes in Alberta. As one of our English visitors states, we are the Naples of Canada. There is a rumor that a brewery will be started if a certain gentleman, an experienced brewer from England, is permitted to take up the residence on the lake.

Mr. L. L. Laidman, our busy storekeeper, intends in the near future to have a casual lunch on our lake, and it is possible there may be two more.

RANFURLY.

Miss A. Mellean of Strathcona has been engaged by the Ranfurly school board to teach the children in Ranfurly school. Classes opened on April 22nd in McIntyre's hall with a very large attendance.

Last Monday evening the young people of Ranfurly were entertained by a large party at the home of Mr. L. O. O'Leary. The stock of J. S. Woods has been sold on the lake shore. The Ranfurly school has been engaged by his assistants in looking forward to the school year.

Buildings Herald: A consignment of paper which had been ordered and dispatched in December from Winnipeg came to hand on Saturday last. J. G. Oliver has received the appointment of house inspector at Edmonton in succession to W. Woodhill who recently resigned. At the last session at Regina the salary for the position was raised to \$1,500 per year.

A statement of the amount of freight paid by business men during the past year is to be prepared for the use of the board of trade. The Farmers' Milling and Elevating company mill at his farm is complete, and is turning out 120 barrels of flour a day now.

BY-LAW NO. 101.

A By-law to provide for the raising of the sum of \$80,000 to pay the purchase price of a site for a new Municipal Power House.

Whereas, the Municipal Council of the City of Edmonton deem it necessary to enlarge and improve the Municipal System of Electric Lighting and to make and use the same for the purpose of procuring a site for a new power house, and the estimated cost of such a site is the sum of \$25,000, and WHEREAS, it is expedient that the said sum of \$25,000 should be borrowed by means of the issue of debentures of the city for an amount not exceeding that sum, and that the sum should be made payable during the period of forty years from the date of the debentures to be issued therefor and should bear interest at a rate not exceeding five per cent per annum, and should, as the principal shall be repaid, be repaid by the city in such manner that the principal shall be paid at the end of the said period on equal annual sum by way of sinking fund being raised annually during the said period sufficient to meet the principal at maturity and the interest thereon annually.

AND WHEREAS, the amount of the whole rateable property in the city and the amount of the said estimated sum is \$17,046,798.

AND WHEREAS, the total amount of the existing debenture debt issued and unissued of the city exclusive of the amount of the said estimated sum by special assessment is \$1,118,024.59 of which no part is in arrear.

AND WHEREAS, it is expedient that this by-law should take effect on the day of the final passing thereof.

NOW THEREFORE, the Municipal Council of the City of Edmonton do hereby enact as follows:

1. The Mayor and Secretary-Treasurer of the City of Edmonton shall be and they are authorized to borrow for the purposes aforesaid of the City a sum or sums not exceeding in the aggregate the sum of \$80,000 and to issue one or more debentures of the city for such sum or sums to be borrowed.

2. The said debentures shall be paid and the said debentures shall be made payable during the period of forty years from the date of the issue of such debenture or debentures and shall bear interest at a rate not exceeding five per cent per annum and shall be the council shall be repaid by the city in such manner that the principal shall be paid at the end of the said period on equal annual sum by way of sinking fund being raised annually during the said period sufficient to meet the principal at maturity and the interest thereon annually.

3. This by-law shall take effect on the day of the final passing thereof.

4. The votes of the burgesses for and against this by-law shall be taken at the council chamber in the City Hall on Monday, the 27th day of May, 1929, between 10 a.m. and 11 a.m.

5. The by-law of the burgesses for and against this by-law shall be taken at the council chamber in the City Hall on Monday, the 27th day of May, 1929, between 10 a.m. and 11 a.m.

6. The said council chamber at the hour of 11 a.m. of Saturday, the 25th day of May, is hereby fixed as the time when and the place where the Mayor will be present and make all such proper appointments as he may be requested to make of persons to attend at the polling place and at the final summing up of the votes by the said returning officer on behalf of the persons interested in promoting or opposing the passing of the by-law.

THE MOOSE JAW EDMONTON LINE

Is Being Surveyed by C. P. R. and may be in Operation in 1928.

Special to The Bulletin.

Moose Jaw, April 30.—E. W. Hutter, field, C.E. of the land survey department arrived in the city a couple of days ago, and left yesterday for the end of the survey of the Moose Jaw-Edmonton branch, accompanied by a party of seven assistants and a complete outfit for the season's operations. The party will spend all summer in the survey of the Moose Jaw-Edmonton line of the C. P. R., and the work of surveying the line will be completed by the fall of this year. Additional steel will be laid this year, and there is good indication of the line being completed to Edmonton in 1928.

PRINCIPLE OF AN EIGHT HOUR DAY

Was Approved by the Council in Employment of Corporation Laborers.

Special to The Bulletin.

The city council last night adopted the principle of an eight hour day and approved an agreement to that effect between the Trades and Labor Council and the Builders' Exchange, which will govern the engagement of the city laborers. The wage per day to be paid to the laborers was fixed at \$2.25. Overtime will be paid on the same basis.

WOMAN REVOLUTIONIST SUICIDES.

Stricken With Grief on Discovery of Husband's Treachery.

St. Petersburg, April 30.—The funeral today of Madame Mulehlin Haradine, a well known revolutionary, who committed suicide abroad, has aroused the greatest interest in revolutionary circles on account of her romantic history. Mme. Haradine was the daughter of a rich manufacturer of good social position and left her home to engage in the revolutionary propaganda.

LETTER SHOWS HUSBAND'S TREACHERY.

A few days ago Mme. Haradine accidentally opened a letter showing that her husband was a traitor who had successfully planned the arrest of an important group of revolutionaries, and even proposed to bring his wife back to Russia in order to deliver her into the hands of the police.

GABRIELS WILL TAKE UP THEIR STRIKING DRIVERS IN TORONTO PLOT.

Falls in Winchester.

Toronto, April 30.—The striking cab-drivers propose returning to work tomorrow morning under the conditions prevailing before the strike, leaving the settlement of the dispute to Judge W. J. McLean. The drivers have made no reply to the proposition and decline to make a statement. It is not likely the owners will recognize the union, but they may grant an increase in wages.

Big Fire Leaves 40 Men Idle.

Lansing, April 30.—A fire of unknown origin last night destroyed the plant of the National Biscuit Company. The loss, estimated at \$200,000, is covered by insurance. Four hundred men are made idle by the fire.

BY-LAW NO. 16.

A By-law Further to Amend the Health By-law.

The Municipality of the City of Edmonton duly assembled enacts as follows:—

1.—By-law No. 156 of the City of Edmonton entitled a By-law respecting the Public Health is hereby amended as follows:—

(a)—By inserting after section 12 the following section, namely:—

12 (a)—Any person occupying as a dwelling place a tent or building apparently intended as a temporary building such as is commonly termed a "shack" shall in three days of his going into occupation thereof or of the place personally or by an agent in person, give notice at the office of the Medical Health Officer of the City of his going into occupation of such tent or building and the number or other description of the lot or parcel of land where the same is situated and the provisions of this By-law with reference to dwelling houses shall apply to tents and all kinds of buildings used as dwelling places.

(b)—By striking out of section 15 the words "No person shall suffer to accumulate on his premises or deposit or permit to be deposited upon any property belonging to him anything that may endanger the public health" and by substituting therefor the words "No person shall suffer or permit to be deposited, or if deposited to remain on any land owned or occupied by him anything that may endanger the public health."

(c)—By striking out of section 17 the words "to the word 'cleanse'" and by substituting therefor the words "Every dwelling house shall be provided with either, so placed that it may be conveniently connected with the Municipal system of waterworks and sewerage or a privy constructed as a receptacle for excrement, or if maintained as a receptacle merely an excavation in the ground, but all privies shall be constructed so as to have as a receptacle a cesspool or a sanitary vault, in accordance with design approved by the City Board of Health, and every privy can be conveniently withdrawn, and every vault or cesspool may be so situated that the sanitary privy can be conveniently withdrawn by sewerage."

Done and passed this 26th day of April, A.D. 1927.

(Signed) W. A. GRIERBACH, Mayor.

(Signed) W. A. GRIERBACH, Secretary-Treasurer.

TENDERS.

Tenders will be received by the undersigned at his office, National Trust Building, up to 12 o'clock noon, on Monday the 31st day of May, for the supplying of a complete set of band instruments for the Edmonton Regimental Band. Tenders must state terms of sale and date when goods can be delivered. The lowest or any tender not necessarily accepted.

G. B. O'DONNOR.

BY-LAW NO. 163.

A By-law to provide for raising the sum of \$22,000 to pay the cost of certain buildings, machinery and appliances for Municipal purposes.

Whereas, the Municipal Council of the City of Edmonton deem it necessary in the interest of the inhabitants that there should be established a Municipal system of scavenging and for that purpose to purchase a number of horses, wagons and other plant and that a number of additions should be made to the Municipal plant used for grading, repairing and improving the streets, and that certain buildings should be erected upon the corporation yards for the purpose of caring for and protecting such plant;

And, whereas, the estimated necessary expenditure for the purposes aforesaid is as follows:

Scavenging equipment	\$7,500.00
Plant machinery	5,000.00
Buildings	9,500.00
Total	\$22,000.00

AND WHEREAS, it is expedient that the said sum of \$22,000 should be borrowed by means of the issue of debentures of the City for an amount not exceeding that sum and that the sum should be made payable during the period of ten years from the date of the debentures to be issued therefor and should bear interest at a rate not exceeding five per cent. per annum, and should, as the Council shall deem expedient, be repayable either:—

(1) In such manner that each installment of principal and interest shall be equal in each year of the said period of years, or

(2) In such manner that the capital shall be paid at the end of the said period (an equal annual sum by way of sinking fund being raised annually during the said period sufficient to meet the principal at maturity) and the interest thereon annually.

AND WHEREAS, the amount of the whole rateable property in the City according to the last revised Assessment Rolls is \$17,046,796.

AND WHEREAS, the total amount of the existing debenture debt issued and unpaid of the City exclusive of local improvement debts, accrued by special assessment is \$1,115,856.50 of which no part is in arrears.

AND WHEREAS, it is expedient that this By-law should take effect on the day of the final passing thereof;

NOW TENDERS.

Tenders will be received by the undersigned at his office, National Trust Building, up to 12 o'clock noon, on Monday the 31st day of May, for the supplying of a complete set of band instruments for the Edmonton Regimental Band. Tenders must state terms of sale and date when goods can be delivered. The lowest or any tender not necessarily accepted.

G. B. O'DONNOR.

shall bear interest at a rate not exceeding five per cent. per annum and shall as the Council shall deem expedient be repayable either (1) in such manner that each installment of principal and interest shall be equal in each year of the said period of ten years or (2) in such manner that the principal shall be paid at the end of the said period of ten years (an equal annual sum by way of sinking fund being raised annually during the said period sufficient to meet the principal at maturity) and the interest thereon annually.

3. This By-law shall take effect on the final passing thereof.

4. The vote of the burgesses for and against this By-law shall be taken at the council chamber in the City Hall on Monday, the 27th day of May, 1927, between 9 a.m. and 5 p.m.

Neville F. Harbottle is hereby appointed returning officer and Harry J. Helliwell deputy returning officer to take the votes at the time and place aforesaid.

7. The said council chamber at the hour of 11 a.m. of Saturday, the 26th day of May, is hereby fixed as the time when and the place where the Mayor will be present and make all such proper appointments as he may be requested to make of persons to attend at the polling place and at the final summing up of the votes by the said returning officer on behalf of the persons interested in promoting or opposing the passing of the By-law.

8. The said council chamber at the hour of 5.30 p.m. of the 27th day of May, 1927, is hereby fixed as the place and time when the Mayor, the returning officer will sum up the number of votes given for and against the By-law.

PASSED provisionally in Council this 26th day of April, A.D. 1927.

W. A. GRIERBACH, Mayor.

F. M. C. CROSSKILL, Sec.-Treas.

TENDER.

Sealed tenders marked "Tender for Sewers and Waterworks" and addressed to the City Engineer will be received by the City of Edmonton until 6 p.m. Tuesday, May 2, 1927, for the excavation, pipelaying and backfilling of the following sewers and water mains:

16,000 lineal feet 6 and 8 inch sewer pipe.

16,000 lineal feet 6 and 8 inch water main.

500 lineal feet 6 inch house drains, and 6 inch water pipe.

Building manholes and catchbasins. Setting hydrants and valve boxes. The City reserves the right to accept any or all tenders. An accepted cheque for ten per cent. and the amount of tender must accompany each tender. Plans and specifications may be seen and forms of tender and other information obtained at the City Engineer's office.

N. F. HARBOTTLE, Returning Officer.

TENDERS.

Tenders are invited to be sent to the undersigned before 5 p.m. on Tuesday, May 2, 1927, for the erection of five houses on 11th street.

Plans and specifications may be seen at the office of

MAGNUS, HOPKINS & JAMES, Architects, Credit Foncier Building.

COUNCIL PROMISE BAND ASSISTANCE

Request Made for City to Purchase Instruments Required Will Ascertain Cost

That a city the size of Edmonton and of Edmonton's prominence is at present without an organized band may be a surprising fact, but the organization of a band will be unquestionably approved by the city council, and the city will not be without a band music for many more months.

George O'Connor and Col. Edwards, representing the band project undertaken recently, appeared before the council last night and asked that the city grant a sum of money sufficient to purchase band instruments and for the engagement of a leader to instruct the band.

It is proposed the band shall be a volunteer organization, and if the city purchase the instruments they shall be held by trustees appointed by the city council. The band will not give a weekly open air free concert during the summer.

Mr. O'Connor said the band now has 18 instruments and required to others. He pointed out that in canvassing for subscribers the band committee was faced by the general feeling that for any organization which would be of so general benefit the city should be asked to bear the expense connected with its equipment and maintenance.

Colonel Edwards said a city band not only added to the pleasure of its citizens, but it is a means of advertising the city. When a city is organized in Edmonton a band would be required, and the organization of one this summer would be very advantageous.

Alderman Daly approved of the organization of a city band, but he wanted to know what the council were to be given.

"In the end, of course," said Alderman Garripy.

Alderman Daly smiled and returned unperturbed. He considered the question which the band would give should be held in every session of the city.

This morning a committee from the band organization waited on the city commissioners to ascertain what the city would do by way of assistance.

The commissioners recommended that the work of organization be proceeded with and the cost of the instruments ascertained, after which they would be submitted to the council.

Cordial Relations of Two Sovereigns.

Rome, April 30.—King Edward, while passing outside of Rome on his way to London today, met King Victor at the country station. Their Majesties remained in conversation for about fifteen minutes. The courteous action of the Italian King in leaving Rome to say goodbye to the British ruler is considered to be further evidence of the cordial feelings existing between the two sovereigns and as a desire to emphasize the good relations between Italy and Great Britain.

No Warship Ordered From England.

Tokio, April 30.—The Minister of Marine denied the report that Japan has ordered a 21,000 ton battleship "England." He said such a step would not be necessary as the works at Kure and Yokohama were capable of constructing larger ships than the preceding two launched there, if it was considered advisable.

The torpedo boat destroyer Kuruma, recently launched at Kure, the minister said had been constructed from a special credit which was exhausted and there were funds sufficient for the construction of several more torpedo boat destroyers whose keels would be laid immediately. Japan has now forty four torpedo boat destroyers.

Ald. McCauley Made Compromise Possible

(Continued from Page 1.)

made up my mind to vote for the artificial franchise bylaw, too," added Ald. Smith.

"The expressions of these opinions would seem to show that the mayor's assumption that the motion to adopt the third reading of the artificial franchise bylaw would be rejected was decidedly presumptuous," said Ald. Smith.

The mayor had no reply to offer to this.

Another Mysterious Ruling.

Following this side play, the occasion arose for the Mayor to deliver himself of a truly fearful and wonderfully concocted ruling.

In the excitement of the moment resultant upon the disclosure of the fact that Aldermen Garripy and Smith would have voted for the artificial franchise bylaw, showing how complete was Alderman McCauley's success to the Mayor's bit of bluff, the fact that Alderman Walker had called for a record of the vote on the motion was lost sight of.

Five minutes later, when the stenographer cleared, the Mayor suddenly remembered the demand and the record was made.

"Those who voted 'yes,'" said the Mayor, were Aldermen Smith, Garripy, Plank and myself, and those who voted 'no' were Aldermen Anderson, Walker and Alderman McCauley did not vote."

"Was McCauley absent from voting?" asked Alderman Walker.

According to the rules of the council, every alderman is required to vote unless he be excused by his fellow members.

The Mayor's Explanation.

The question was—movement of a factor for the Mayor, but he carried it off in about the same manner as he voted his last bluff.

"When the vote was taken Alderman McCauley did not vote, and that record stands," he said.

"The Mayor then questioned the ruling, but he was apparently unaware that a vote is not taken until it is recorded if a demand for a record of the vote is made by any alderman."

The Mayor and Aldermen Smith and Garripy were as good as their word and supported the artificial franchise bylaw third reading.

Alderman Plank followed suit to show he was not opposed to the bylaw going to the people, as some other aldermen seemed to be.

Getting Ready For The Fray.

The Mayor's campaign ball moulded in the discussion on the clauses of the two agreements were passed.

The Mayor sprung a mine, when he discovered in the Natural Gas Company's artificial franchise that the duration of this part of the agreement was fixed at twenty years.

"The duration of the duration of the artificial part of this company's franchise was for fifteen years, the same as the natural gas portion of it," he said.

Caught in Time.

"Oh, no," said Acting City Solicitor Walbridge. "I inserted that clause to make it the same as the artificial company's franchise. Without that clause, and in the same form as it was approved by the council, the agreement was for a perpetual non-exclusive franchise, in so far as it dealt with artificial gas."

Some of the aldermen sat up and took more than a passing notice in the fact that an agreement had been passed by the council providing for an indeterminate franchise.

The Mayor at this juncture asked Electric Superintendent McNaughton, who was present in the interests of the Northwest Gas and Oil Company, if his company would accept a fifteen year artificial franchise. Mr. McNaughton agreed.

When the clause containing the word "materials commonly used" in the manufacture of gas, the point involving patents and which the Artificial Gas Company insisted upon remaining intact, refusing to accede to the council's argument that the word "commonly" should be struck out, thus placing the city in a position to benefit by any patents which the company might secure, and which would not be in common use. Mr. McNaughton, on the advice of the Mayor, decided to permit the engrafting of the word "commonly."

Teek The Tip.

"It will be to your advantage to do so," said His Worship. This is the point on which she might fight the artificial gas company's franchise, and if you do not insist on the substitution in your agreement of the clause containing this word, I shall support your franchise with both hands."

"In so far as that clause deals with price of gas as interpreted by the council," said His Worship, "it has little effect, for the remainder of the clause provides that the minimum price need not be fixed below the average price charged in cities of a similar size to Edmonton."

This brought the question from Alderman Garripy. "Will your company agree to supply gas as cheaply as it is supplied in any city the size of Edmonton on the continent?"

Mr. McNaughton promptly replied "Yes."

"As long as the council does not tamper with our natural gas agreement," he said, "it makes no difference to us what you do with the artificial franchise. We do not intend to manufacture gas unless our natural gas gives out after we have our main line. If we have an artificial gas franchise then we are protected."

Both bylaws will be voted on by the ratepayers on May 27.

The council adjourned at five minutes after midnight.

Bookmakers Heavily Fined.

Toronto, April 30.—The cases against the bookmakers at the football, which were adjourned pending an appeal to the Supreme court in the Jake Ross case, came before Judge Macintosh Denison today. Herbert Bailey and Fred Ross were fined \$100 each and fifty dollars each with costs and Thomas Hare one hundred and costs.

As Good A Soap Inside As Outside

Baby's Own Soap

—keeps its delicate fragrance to the very last fragment. It is so thoroughly well made that it will wear as thin as a wafer.

Avoid soaps whose only justification for existence is that they are made to look like "Baby's Own" and are said to be as good as "Baby's Own."

There is every reason why you should only use "Baby's Own" — Canada's best toilet and nursery soap.

Albert Soaps Limited Mfrs. MONTREAL.

The Spring is Here

bringing with it to thousands "that spring feeling"—lack of snap—uncertain digestion—occasional headaches.

It is simply that the organs are stuffed up and poisoned with the winter's overeating and living much indoors without sufficient exercise.

Abbey's Salt goes straight to the root of the trouble by putting the Bowels, Stomach and Liver in good working condition.

That means pure blood, buoyant health and plenty of energy.

At Druggists, 25c. and 50c. a bottle.

Efficient Effort

Money Grows When Planted in Good Soil

We have secured control of all the unold portion of the Original Townsite of

Wetaskiwin—66 Lots,

all right IN THE HEART OF THE CITY and within a Block or two of the Post Office. These Lots are 50 x 130, and the price but a fraction of their value and the terms may be enough for anyone.

The Price \$225.00 up and the terms only one-third cash.

PLANT YOUR MONEY HERE AND SEE IT GROW.

Wetaskiwin has a population now of 3000 and it's growing fast; it has everything within its bounds to make a great City; it is the centre of a great Grain Growing section and has Six Elevators.

Coal Mining is in operation close to town with unlimited supply. Logging and Lumbering is an active industry, many men being employed in the camps.

It has Three Chartered Banks and its Educational facilities are unsurpassed. Alexandra School alone cost \$42,000 and will accommodate 500 pupils.

Wetaskiwin will be a railroad centre. The C.P.R. branch line running east connects with the main line now building to the Yellow Head Pass. The Grand Trunk Pacific and the Canadian Northern will be here in the near future.

Wetaskiwin is the brightest town between Edmonton and Calgary. It can no more help growing than Banner Oaks.

PLANT YOUR MONEY HERE.

EARNSCLIFFE

Promises to become the most beautiful residential section in the Edmonton District. Earncliffe is on the Strathcona side within 20 minutes walk of Edmonton Post Office.

Ideal Sub-Division par Excellence

Is just across the river from Edmonton and is divided into 177 lots, beautifully laid out. Each lot has 50-ft. frontage, high and dry, free from sloughs, holes and ravines. A splendid place to build a home for your family. **Every lot is a view, view, view.** Delightfully located on the edge of the heights overlooking the Picturesque Valley of the Saskatchewan, with full panoramic view of Edmonton stretching along the opposite plateau.

Will Quadruple Present Value in 6 Months

Earncliffe is within mile circle from Jasper Avenue and the choice lots are being snapped up quickly. A large part of the sub-division already sold. Get in on this and do it now. Phone or write and our representative will call with maps, charts and other valuable information prepared to show you the many natural advantages of this beautiful subdivision.

The Price is Right The Terms Easy

Earncliffe immediately abutts the new 80-ft. Government road that is just being completed. This admirable sub-division is easily accessible and has every essential feature necessary for an ideal home site. The majority of these lots face a broad boulevard which is laid out in the form of a crescent.

Best Buy on the Market From \$250 to \$350 the Lot

Don't miss the chance to buy these lots--think of it, only \$5.00 the front foot. **TERMS:** One-third and one-quarter cash. Balance 6, 12 and 18 months, or \$10.00 a month without interest. Phone, write or call for plans and full information.

SPORTING NEWS

IS BUNT MY KING.

Willie Keeler Has Batted .300 For Fourteen Years.

Since 1915 Willie Keeler has batted .300 for fourteen years.

Last year he struck out but twice, big Ed. Walsh of the Chicago White Sox, being the only one to get him out of the box.

Keeler is usually taciturn about his sports, but during a fanning bout in Hugh Jennings' room, while there were in attendance, he was in-duced to tell about his work.

"Don't be chicken-hearted," he says. "Remember the pitcher is as much scared of you as you are of him. Don't try to knock the stuff out of the ball. Hold your bat firm. Meet the ball and kind of push it where you want it to go."

"In hunting, I always aim to have the ball hit within an eighth of an inch of my finger. My theory is that if I were standing there to make a one-handed catch of what the pitcher was going to send over, I'd at least get it in my mitt."

"Therefore, I grab the outside end of the bat with the hand I would otherwise catch the ball with, and try to have the ball connect with my bat same as it would fall into my hand."

Keeler's views are realistically shown in a picture which was procured. You can see the ball is about to strike the bat close to his finger. It looks as if he were going to get some smashed fingers, but he says he has never yet had his hand hit.

FOR YOUNG PLAYERS.

The first thing for a youngster to acquire is a nickname. A ballplayer never became famous as William or Henry, but as "Mugs" or "Trips" and your success is assured. Remember that umpires are your only friends and are meant to be abused. The umpire must be called out, and every good player makes the umpire believe he is to blame for raw work on the bases.

Your job is to get right with the manager. He is the man who is called out, and every good player makes the umpire believe he is to blame for raw work on the bases.

Never knock the ball with a fielder can catch it. This rule must never be broken. Learn to be an "inside ballplayer." If a ball comes toward you do not faint, catch it. Another unbreakable rule.

Learn to be an "inside ballplayer." No one knows exactly what one looks like, but he can be one. When you are on the coaching line always encourage the batter. If the manager is at bat make a play by calling to the score boy to "chuck up another run"—although the score is hung up, not chucked up—or else motion to the fielders to play back to the fence.

Whenever you must a ball swear at the score and tell him it was too hot to handle.

Never run away when anyone begins to throw a pop bottle at you. Pick them up. You can sell them for three cents apiece.

When a staff photographer wants to take your picture, take it. Be beautiful and make him coax you. Don't overdo it, though. Let him to leave your picture in the paper. Send it home to the folks. It is a good thing to use to prove that you're not in jail.

CRICKET LEAGUE.

The Edmonton Cricket Club has just been notified that a meeting will be held at Red Deer on May 10th for the purpose of organizing a provincial cricket league. The various clubs in Alberta have been asked to send a delegate and the league idea is a move in the right direction to still further popularize the sport.

CRICKET.

The Pine Lake club has decided to send a team to play here on June 20th, and on the 21st, the visitors will tackle Fort Saskatchewan at the Fort grounds.

The cricket players are now ready to send a team to play here on June 20th, and on the 21st, the visitors will tackle Fort Saskatchewan at the Fort grounds.

It has been arranged for the Edmonton team to play a match with Calgary at Red Deer on May 10th, and the same evening the "league" meeting will be held at the same place. The local club has lost a few of last season's cricketers, but there is plenty of new material to fill the vacancies.

The cricket club executive meets on Thursday night at 8 o'clock at the Saturday News office, Howard street, for the transaction of important business. The grounds committee will meet to get busy at once, as the ground needs levelling quickly, and this will involve considerable expense.

A REMARKABLE RUN.

London, April 30.—From 802, the British billiard record for a single run, has been in the hands of S. S. 769. After unscoring the table ball was drawn in a single shot, and named astonishing total which he made by the use of the famous anchor cannon stroke in an unbroken break. Public opinion demands the abolition of this record in view of the coming ridiculous in view of the apparatus. Limited.

Larson's match was at \$5,000 points up against Lovejoy, who by the irony of fate is the man who discovered the anchor stroke. Lovejoy simply asked for a spectator.

TENNIS.

The Edmonton Tennis Club expects to resume practicing before the middle of the month, and persons

in their names at once to the secretary, Mr. Adams. Another court will be added this year, and the executive will take special care not to admit membership too many players, thus ensuring all who are fortunate enough to be selected will have the opportunity to indulge in the pastime whenever they feel thus inclined.

IF.

Calgary Albion: "If" Dorchester can beat Calgary by ten runs to three, and Calgary can beat the Providence Eastern League team by five runs to two and the Providence team can beat the Buffalo team by four runs to three, and Buffalo defeat Toledo six runs to one, and Toledo beat Minneapolis by six runs to nil and Minneapolis beat Winnipeg eleven runs to four, and Winnipeg beat Lethbridge two runs to one, and Lethbridge beat Edmonton sixteen runs to one, how much should Calgary beat Edmonton by?

In a local contest Calgary could skin the Capitals out by somewhere near 41-14 runs, but at base-ball, well—but what's the use of rubbing it in.

BASEBALL.

Boston leads off the six left-handers. Aberdeen made it six straight from Vancouver. Playing final game of the series 5 to 3.

Goucher, a pitcher, and Keough, a third baseman, stand out by Calgary, have been released.

Aberdeen has a big lead in the Northwestern, with Seattle second and Tacoma third.

One run victories are already in evidence in the Northwestern. On Thursday Seattle whipped Butte 1-0 and Tacoma downed Spokane 4-3.

Winnipeg has a Union Label league team in it. Builders, Metal Workers, Printers, and an aggregation strike the rough and ready.

Winnipeg Maroons keep on winning. Willie Keeler about 4-3 against the team at the opening of the ninth, they trimmed Ed Claine 7-4 at the latter city on Saturday.

"Chester" Cox, who was passed up by Manager Whyte, is playing tonight in a match with Winnipeg. In Saturday's game he answered three of the six left-handers, and was fielded perfectly.

In the six games at Vancouver, Edmonton has won three straight, struck out a dozen times in twenty-three games.

Larry Lajoie got \$46 for every hit he made last season. But that's not the only thing he has done in \$20,000 for a single game.

Winnipeg has won three straight on the training trip. They moved down Minnesota College at Minneapolis 7-4 Friday.

Here's the dope for you. Kansas and St. Louis universities battled nine innings at the end of the season. Kansas won in the tenth.

Province: If Vancouver does not win a game soon it will not be a case of asking a friend "Who won?" It will be a case of asking a friend "What was the score?"

The American league won't open until April 18 or 20. Even across the line they are finding out spring weather hardly ever comes in until almost May 1.

And now the gloriously democratic days are here, when President Hoover will even Mayor Orin (Chicago) is not one, two, three to the chap who won out a couple of years ago with the bases full.

The Rochester Herald says: "If last season's team had been on the Eastern League race would this season be the closest in the history of the circuit?"

Pitcher "Stony" McMillen, St. Louis cardinals, is a polished winner. From his first performance this season he appears to be in the winner's circle.

Dorchester 10 Calgary 3. Manager Whyte should have known better than to sock up against a corner lot aggregation in a town the size of Dorchester. Miller or Hobbema are more Calgary's size just yet.

Larry Piper made glad the heart of the Winnipeg manager in the game with Minnesota College. He con- sidered safely on three occasions, one of them being a three spot.

Seattle got only one hit off Butte Thursday, but scored five runs on infield hits and won the game, the Sox scoring but four runs on their ten hits and although they had sixteen runs reach first base. Three pitchers were used by Butte.

There is trouble ahead for the limit question. \$1,300 a month was the limit for the season. The manager says he is paying between \$1,750 and \$2,500 a month for the season. The limit is \$1,300.

Martin-Senour

100 Per Cent Pure Paint.

We have secured the sole agency for this well known brand of Ready-Mixed Paint.

As its name implies, it is guaranteed to be superior and sold only by chemists, analysts.

Being 100 per cent pure it will cover 25 per cent more surface, wear longer, and is therefore more economical than other brands of so-called pure paint.

When buying paint, remember it costs no more than the other brands and get Martin-Senour 100 per cent pure paint.

OPPOSITION TRY TO SIDE-TRACK RESOLUTION FOR INCREASED SUBSIDIES

Mr. Borden Tries to Avoid the Issue, While Mr. Bergeron Assails the Provincial Legislatures as Unworthy Stewards of Public Funds. Bourassa and Lavergne are Effectively Squelched in Their Opposition.

(From Our Own Correspondent in the Press Gallery.)

Ottawa, April 28.—This wonderful Ontario climate performed another feat last night when a couple of inches of snow fluttered down. The event was as unexpected as unpleasant for the few preceding days had brought a satisfactory sample of orthodox spring weather with bright sun and balmy air.

Yesterday was another day of talk followed by an evening of pretty fair work. The day was chiefly distinguished by an abortive attempt to rouse hostility toward the Government over the Petawawa military academy, and a motion of Mr. Borden for a committee to inquire whether railway rates could be reduced to 7 cents per mile. The former was failed out, and the latter was voted out, as the railway men are already working along this line.

Provincial Subsidies.

Provincial subsidies occupied the House today as the chief topic of debate. Mr. Fielding moved the reconsideration of the motion of Mr. King asking for an amendment to the B. N. A. Act for the purpose of the support of their governments and legislatures, to be added to population, and as follows:

- (a) Where the population of the province is under 150,000 \$100,000
- (b) Where the population of the province is 150,000, but does not exceed 200,000 150,000
- (c) Where the population of the province is 200,000, but does not exceed 400,000 200,000
- (d) Where the population of the province is 400,000, but does not exceed 600,000 400,000
- (e) Where the population of the province is 600,000, but does not exceed 800,000 600,000

(f) Where the population of the province exceeds 800,000 800,000

B. Instead of an annual grant per head of population now allowed, the annual payment hereafter to be at the same rate of eighty cents per head, but on the population of each province, as ascertained from time to time by the last decennial census; (or, in the case of the provinces of Manitoba, Saskatchewan and Alberta, respectively, by the last quinquennial census or, if statutory enactment, until such population exceeds \$500,000, and at the rate of sixty cents per head for so much of said population as may exceed \$500,000.

It is then proposed to increase to the extent of one hundred thousand dollars annually for ten years to the extent of one hundred thousand dollars. D. Nothing herein contained shall in any way supersede or affect the terms special to any particular province of the Dominion of Canada or the right of any province to payment of any special grant hereafter made by the parliament of Canada to any province for any special purpose in such grant expressed.

We pray that the House may be graciously pleased to cause a measure to be laid before the Imperial Parliament at its next session, repealing the provisions of Section 118 of the British North America Act, 1867 as amended, and substituting therefor the scale of payments above set forth, which shall be a final and irrevocable settlement of the amounts to be paid yearly to the several provinces of the Dominion for their local purposes and support of their governments and legislatures.

Such grants shall be paid half-yearly in advance, to each province, but the government of Canada shall deduct from such grants the several amounts stipulated in the said act. All of us warmly pray Your Majesty to take into your favorable and gracious consideration.

DOGS WILL BE SHOT ON SIGHT

If They put in an Appearance When Herd of Buffalo Reach Lamont This Summer.

Specie to The Bulletin.

Lamont, April 30.—Mr. Frank Walker, M.P.P., Mr. Howard Douglass, superintendent of beef park and Mr. Carey, made preparations during their recent visit to the park for the coming of the herd of Montana Buffalo to be brought to the government park.

They decided that the animals should disembark at the end of a laneway made by built through the park railway yard to the park. This is a distance of two and three-quarter miles. Mr. Robert Swan has been engaged to begin this work at once. The work of erecting the park must be completed by May 25.

Dogs Prohibited Near Buffalo.

Notices are being posted up with orders that all dogs must be shut up on the day of the herd's arrival, as there is danger that they might excite the herd. Policemen are detailed to be about the station, and they have orders to shoot all canines at sight. As a consequence the residents of Lamont will keep their dogs locked up that day.

It is said that the bull buffalo are to be brought up first, and later the cows and calves are to come.

LAMONT.

Mr. Walker has sold E. G. Leancy a lot on King street for five hundred dollars. Another lot was also sold to Mr. Jessup for three hundred. On it he is erecting a jewelry shop and dwelling house and is now erecting a house along as rapidly as possible.

Mr. W. H. Woodruff has sold the northern part of the southwest quarter of section 26, Twp. 12, R. 12, of the 4th m. to M. J. Rose of Edmonton for a consideration of three thousand dollars. The south part of the same piece of land lying north of the C.N.E., was also sold to Messrs. Walker, Reid & Holmes, who are to put it on the market as soon as possible.

Mr. James Hay of Strathcona is here erecting a house on his home-sited lands, and performing his household duties.

A large force of men have been for some time preparing for the work of enclosing the government park to the south.

Our local hotel has been so full that a number have had to sleep on the floor.

Mr. F. C. Smith is preparing to move out of his old home into his new one this week, and Mr. Joslin is going to move.

Superintendent Carey of the C.N.R. has requested a P. O. purveyor bar as soon as possible, and he says that a much longer for station is to follow as soon as the men can get around to it.

Mr. Robert Dickey took Superintendent Carey out to see his gravel pit, and if enough is there to make it worth while after it has been examined the C.N.R. will be glad to let it to get the gravel for ballast.

Mr. Fletcher of Westcoast was in town on business recently.

Mr. Henning is adding 40 feet to his hotel, and under the management

The Other Side.

Forthwith it became clear we were to have the reverse of the provincial rights question of which the opposition have done so much talking of.

Dr. Sprague objected that the rules prevented the reconsideration of a resolution during the same session. Mr. Borden followed and cited the speaker's ruling when Mr. Borden had sought to bring on a second statement of the Fowler scandalous. The speaker ruled that the objection came too late. It should have been made two days ago, when the House adopted a motion to reconsider the resolution today. The motion could not now be reconsidered. These preliminary notices made it clear that the Opposition wanted the resolution heated over till next session at any event.

Alberta Vindictively Interested.

Therougen Mr. Fielding proceeded with the resolution, pointing out that the amendment sought to safeguard the provision that the subsidies to Manitoba, Alberta and Saskatchewan should be revised every two or three years. The government considered that the address originally drafted contained a saving clause, but legal objection having been taken, it is then proposed to reconsider the address.

Mr. and Mrs. Lavergne objected that the amendment was unjust to Quebec and should not be passed in the absence of the Premier of Quebec. Europe. It discriminated against the provinces of the Dominion of Canada. Hon. Mr. Lemieux told Mr. Lavergne that the subsidies to the provinces were given to the Premier of Quebec and gave the young member for Manitoba a good dressing down by pointing out that the requisition of the subsidies to the western provinces every two and a half years was provided for in the constitution.

Mr. Bourassa captured the floor at the end of the session and denounced the resolution as giving Manitoba, Alberta and Saskatchewan a quinquennial readjustment of subsidies. The Minister of Justice interjected the information that this was not a new provision, but had already been made in the Subsidy Act. Mr. Bourassa said the granting of the petition by the Imperial Parliament would be the hands of the Dominion Parliament that they could never take from these provinces what had been given them. Again, Mr. Aylesworth tendered him the information that the British North America Act, 1867, provided that the constitution having once been given a province the Federal Parliament should have power to retract it. This somewhat staggered Henri, but did not silence him. He feared the resolution would provide for a double subsidy to the western provinces, that their present legislative grant would continue to stand, and denounced the idea that the provinces should be given more money simply because they asked for it.

Provinces Get Too Much Money?

Mr. Bergeron, who rivals Mr. Monck for the honor of Conservative lieutenant in Quebec, came out last night asking for any increase in provincial subsidies. Parliament, he said, was giving too much money to the provinces already. The provincial legislatures had used the money given them. If the money was spent by the Federal Parliament "we said Mr. Bergeron, "are here to investigate how it is spent," but if given to the legislature "we didn't know what became of it."

The Doctor's Fear.

Dr. Sprague was alarmed lest the present scale of payments to the western provinces and the new scale proposed should run concurrently. He was sure that the present scale, merely held until the new came in, were delayed by a few years by an amendment proposed by Mr. Barker, of Hamilton, making this clear even to Dr. Sprague.
